

# STRUCTURED SETTLEMENTS FROM AN INVESTOR'S PERSPECTIVE

Comparing structured settlements to non-guaranteed, taxable investments is like **comparing apples to oranges**.

In order to make accurate comparisons, four simple questions should always be asked:

**Q1** What is the impact of taxes?

**Q2** What is the impact of fees?

**Q3** What is the impact on government benefits?

**Q4** What is the level of risk?

# STRUCTURED SETTLEMENTS ARE OFTEN COMPARED TO “BALANCED” INVESTMENT PORTFOLIOS

Many people are unaware of just how difficult it is for a well-managed, balanced mutual fund to outperform structured settlement returns. What does the mutual fund really promise after management fees, taxes and loss of government benefits?

CONSIDER THE FOLLOWING:

*What are you really left with?*

**Mckellar** STRUCTURED SETTLEMENTS

*Now you're sure.*
